 3000 x 1200 x 13mm
 3000 x 1350 x 13mm
 3600 x 1200 x 13mm

FINISH & DECORATIVE OPTIONS:

- General supplied raw for easy onsite painting in any desired Dulux or similar colour of your choice.
- Alternatively an undercoat option is available.

ACOUSTIC OPTIONS:

K100 is a special acoustic textile that is adhesively heat transferred to the rear of all our acoustic panels. It is applied to enhance the acoustic performance of the board.

Unlike other acoustic plasterboard on the market, Keystone panels are perforated and slotted to achieve your require acoustic requirements.

Our manufacturing techniques allow for a vast variety of patterns, hole and slot sizes, borders.

Ref: to our Open Area Guide by contacting Keystone.

ACOUSTIC PERFORATION & SLOT PATTERNS

KEY-BOARD perforation & slotted panels are available in five standard patterns. Please ref to page...

Each pattern has ranging hole sizes and slot widths AND centre spacing to achieve an open area acoustic performance, see Open Area Guide.

FIXING & INSTALLATION:

Panels to be installed by builder or nominated contractor, (Keystone to manufacture and supply panels only).
